

## When?

March 17–19, 2003

## Where?

Radisson Astrodome Hotel  
Houston, Texas

## What is the Texas Technology Showcase?

The Showcase will feature industrial technologies and best energy management practices of interest to **chemical plants and refineries that result in increased energy efficiency, reduced emissions, and improved competitive and environmental performance.**

## Why you should be here?

- Learn how to incorporate best energy management practices into your plant operations that save you money and reduce emissions.
- See the latest energy-efficient process and combustion technologies in action and talk to operators, developers and researchers while attending plant tours.
- Talk to technology exhibitors and service providers with superior expertise in energy efficiency applications.
- Identify new opportunities for funding plant improvements.
- Network with industry and government leaders.
- Attend a Congressional Forum on the future of Petroleum & Chemicals and share information among industry leaders, the public, and the state's elected officials.

## Who will be here?

- Plant managers
- Plant utility and environmental engineers
- Technology experts
- University/national laboratory researchers
- Equipment suppliers
- Members of Congress
- Local, State and Federal government leaders
- Environmental agency staff

## Hosts

- The Office of Energy Efficiency and Renewable Energy, The U.S. Department of Energy
- The Texas Industries of the Future

## Sponsors

- Texas Council on Environmental Technology
- Texas Natural Resource Conservation Commission
- Texas Chemical Council
- Texas Energy Coordination Council
- Center for Energy and Environmental Resources at the University of Texas
- State Energy Conservation Office of the Texas Comptroller of Public Accounts
- Texas A&M University Industrial Assessment Center
- American Institute of Chemical Engineers
